Skills

Data Science, Data Analytics, Python, SQL, Regression, Neural Networks, Data modelling, Project Management, Pandas, Computer Vision, Pytorch, GANs (Generative Adversarial Networks)

Experience

Goa Miles / Intern

June 2021 - September 2021, Goa India

- Worked with Sr. Data Analysts to Make Data Visualizations of clients, revenue and future growth using Power BI
- Used python to model growth forecasts for the company.
- Worked with Colleagues to make a list of prospective clients.

During our time in GoaMiles, we managed to gain around 9 clients and managed to increase revenue for the company by 8-9 lakhs. We learned from senior Analysts and learned to cooperate with other colleagues.

Education

Christ University / Msc. Data Science

August 2022 - Current, Pune, Maharashtra

- Python for Data Science
- Computational Mathematics
- Linear Algebra for Data Science
- Researching Latest Papers

Parvatibai Chowgule College / BSc. Physics

June 2019 - June 2022, Goa India

CGPA:-8.3

- Computational Physics
- Error Analysis and Statistics
- Mathematical Physics

Certification

Google Data Analytics Professional Certificate

August 2021

- R programming Language

- Power BI
- Data Visualization and Presentation
- Communication with your colleagues
- Project Management

Data Science For Engineers

January 2021 - March 2021

- R programming Language
- Linear Algebra
- Regression and Classification
- Loss and Data Modelling
- Hypothesis Testing and Statistics
